EXPANSION OF A PRIVATE HOUSE IN LEGNAGO (VERONA)

A TAILOR-MADE INTERVENTION USING THE FRAME SYSTEM

Realizing the extension of a private house in a residential context means having to intervene with a tailor-made project, which respects the existing structures and offers a practical and functional solution to the customer's needs. For this reason, the use of a frame system is the most suitable answer for these needs. Columns and beams in laminated wood offer great flexibility in the design phase and extreme solidity of the creations.
