

CID BUILDING
AN ECO-SUSTAINABLE HOME FOR INNOVATION AND DEVELOPMENT

The Centro de Inovaciòn y Desarrollo (Innovation and Development Center) in Valencia best represents through its architecture the vision and contents that find space within it. In particular, OKO, a group of professionals at the top of green building and sustainable urban design in Spain and Europe, is based here. A point of reference for eco-friendly design, the CID has received several awards and warnings in this area, including the Endesa Award for the construction of more sustainable non-residential properties.
